Doan Dinh Giap

Internship Software Engineer

0332972186 doandinhgiap@gmail.com facebook.com/giapjunior Chuong My, Ha Noi

OBJECTIVE

Third-year Software Engineering student at FPT University with a strong foundation in programming, system design, and problem-solving. With experience in developing web applications and teamwork on academic projects, I am passionate about building practical, user-oriented software solutions. In the next 5 years, I aim to become a Full-Stack Developer contributing to large-scale system development.

EDUCATION

FPT University Oct 2022 - June 2026

Major: Software Engineering

TECHNICAL SKILLS

Programming Languages:	Java, JavaScrip, C#
Frameworks/Platforms:	Spring Boot
Database Management Systems:	MS SQL Server, My SQL
Others:	Good understanding of OOP methodologies, SOLID principles

WORK EXPERIENCE

FPT University - Full Stack Developer (Team member) Step 2025 - Nov 2025

Project: CRM System for Industrial Equipment (6 members)

- **Description:** A web-based Customer Relationship & Maintenance Management System designed for managing contracts, service requests, maintenance schedules, spare parts, and technician assignments. The system supports multiple roles including Admin, Customer Support Staff, Technical Manager, Technician, Storekeeper, and Customer.
- Technologies: Java Servlet & JSP, MySQL, JDBC, Bootstrap 5, AJAX, JSON, JSTL, Git.
- **Responsibilities:**
  + Developed core modules: Service Request Management, Invoices Management, Equipment Management
  + Implement the Equipment function to support users in reporting equipment status to the system so that equipment can be maintained promptly.
  + Deploy the Manager Invoices function to support users in conveniently looking up service history and supporting customers when needing warranty or complaint.
  + Collaborated with team members to ensure MVC structure, UI consistency, and data integrity across modules.
